

Julien Jelev

Self-motivated, creative and proactive individual with positive and goal-oriented attitude. Highly adaptable, ability to learn quickly, disciplined and organized with good time management skills. Strong in building relationships and able to communicate at all levels. Team player with the ability to work independently in a deadline-intensive environment and to balance multiple priorities/projects. I am **able** to handle multiple tasks on a daily basis and always **energetic** and eager to learn new skills. Even though I take my work seriously, I do have a good **sense of humour**.
